

Palms Marina, Houston, TX North American Marine Industries, Inc. (NAMI Docks) located in Missouri, was awarded the contract the new docks for Palms Marina. NAMI Docks completed the project on time. The project consisted of the following: **Dock A** -- (22) 12' x 26' and (30) 12' x 28' covered slips.

Dock B -- (31) 14' x 30' and (32) 14' x 36' covered slips.

Dock C -- (54) 16' x 40' covered slips. **Dock D** -- (30) 18' x 50' and (30) 18' x 60'

covered slips. **Gangways & Walkway**-- 100' Long by 12' Wide walkway with (2) 6' x 24' Gangways and a **Gas Dock**. For more information on NAMI Docks visit their website: www.namidocks.com.

The Palms Marina is the first new marina to be built on Lake Conroe in approximately 20 years and will be the quickest and easiest access from the Houston Metropolitan area. Plans are to expand the existing Breakwater and completely remove the existing wet slips and replace with new larger ones. .

Located on the former site of Anchorage Marina, The Palms Marina on Lake Conroe will soon show no resemblance to what used to be. Originally scheduled for completion by Memorial Day 2008, the complex has been demolished and rebuilt into a gated Super Marina for boaters and fishermen everywhere. Over 200 brand new "full service" floating boat slips are replacing the entire harbor's old and crumbling dock facilities.

A brand new and larger "Ship's Store" and fuel dock featuring 3 grades of gasoline and diesel services boaters from Lake Conroe with low prices. Security gated executive restrooms, laundry & showers are being built adjacent to the floating marina with a covered breezeway and deck. For more information about the Palms Marina visit their website at: www.palmsmarina.com
